

## Attribute

An attribute is a component that is assignable to products and pages. Attributes are grouped into variables that are used by visitors or customers to drill down and search for products and content pages.

attribute:

description:

- [-] Attribute systems
  - [-] Music variables
    - + Category
    - + Artist
    - ▶ [-] Media
      - CD
      - DVD
      - mp3 CD
      - Download
