- 2. Twistower** Votes: 4+  
By: [haggf](#) | 22-Sep-2009 | 15:10 | [Mail idea](#) | [Print idea](#) | [RSS](#)  
The Twistower is an ultra light floating and rotating tower which can be applied by a solar updraft tower. In principle the tower is a stable twister bound by a rotating thin walled hollow cylinder.
